

BUT God

But God remembered Noah, and the waters did recede;
But God was with Jacob, protecting him in his need.
But God was with Joseph, who knew what God said He'd do—
So even if we can't understand how, God will work things out for you!

But God loved the Israelites, freed them from slavery;
Just as how God so loved the world, He sent His Son to die for you and me;
And though David ran from Saul, **but God** kept him safe,
Though the way was very rough—through deserts, hills and caves.

Yet God will not tempt us beyond what we can endure,
But God is faithful, He'll make a way out, He's always near.
So let us be faithful, shine for Him and never cease,
Some will plant and some water, **but God** will give the increase.

But God later established David, gave Him rest on every side;
Remember the battle's not ours but His, in Him we must abide.
No matter what may happen to those who know Jesus as Lord,
They need not give in to despair, because there'll always be a '**but God**'!
